## **[Essay Subject]**

Paper bills and coins are in less circulation, resulting in cashless economy, a trend that is gaining pace.

- 1) Concerning the trend, make an analysis of its merits and demerits, positivity and negativity, as well as its possible consequences through multiple viewpoints with a bird's-eye view.
- 2) Based on the findings you have gained above, argue on how and why the relations would change between: money and humans; money and society; and money and state.

When answering each one of those two questions you can write however long or short you deem adequate.
