The University of Auckland, Business School

Chair in Energy Economics | Economics

20:00-20:30

Q&A Session

(20:30-21:30 Networking *500yen (with drinks and snacks): Register at the SDM website)

Prof. Basil Sharp

Professor and Associate Dean of Business School, the University of Auckland. Basil Sharp joined the department in 1991. His research interests span the field of environmental economics and law and economics. He has a specific interest in developing microeconomic foundations for analyzing mechanisms for allocating natural resources, treaties and institutional structures in general. He has also applied non-market valuation methods to a range of environmental problems in New Zealand. His current research focuses on contracting and international treaties.

Registration:
